INDEX

VOLUME 31, 1955

A

Academy, Recent publication, The surgery of Theodoric, Janet Doe, 865
Academy Plaque, Citation and presentation to Dr. Haven Emerson, 875
ACTH and infection, Cortisone, Lewis Thomas, 485
Adlersberg, David. See Panel Meeting, 198
Alcoholism, as a medical problem, Giorgio Lolli, 876
Allen, Edward B., Management of cerebral arteriosclerosis, psychiatric aspects, 366
Amberson, J. Burns, Current methods in the treatment of tuberculosis, 20
Anesthesia, Renal function during general, E. M. Papper, 446
Annual Meeting, January 6, 1955
  Address of the retiring President, Alexander T. Martin, 251
  Anniversary Discourse, Problems of professional manpower, Frank B. Berry, 417
  Citation and presentation of the Academy Medal to Allen O. Whipple, M.D., Edward J. Donovan, 257
  Inaugural address, Edward J. Donovan, 245
Antibiotic therapy, Complications of, Louis Weinstein, 500
  therapy of viral and rickettsial diseases, Joseph E. Smadel, 704
Antibiotics, Changing pathologic picture of infection since the introduction of chemotherapy and, Paul R. Cannon, 87
  Current concepts in the use of (Panel Meeting on Therapeutics), Yale Kneeland, Jr., *Moderator*, 639
  Prevention of rheumatic fever by the use of, Gene H. Stollerman, 165
Antimicrobial agents, Current status of the development of, Gladys L. Hobby, 181
Ardalan, Ali Gholi, What Avicenna means to the Persians, 302
Arteriosclerosis, Current concepts in the management of (Panel Meeting on Therapeutics), William Dock, *Moderator*, 198
Avicenna Thousandth Anniversary, 299-334
  Avicenna and his cultural background, Arthur Upham Pope, 318
  Avicenna and Islamic science, Iago Galdston, 300
  Avicenna—physician, scientist and philosopher, George Sarton, 307
  What Avicenna means to the Persians, Ali Gholi Ardalan, 302

B

Baker, Daniel C., Jr. See Panel Meeting, 835
Barach, Alvan L. See Panel Meeting, 639
Berry, Frank B. Problems of professional manpower, 417
  See Panel Meeting, 36
Biggs, (Hermann M.) Memorial Lecture, Alcoholism as a medical problem, Giorgio Lolli, 876
  Medical aspects of opiate addiction, Harris Isbell, 886
Blood transfer, Antecedents of, Lester Blum and William M. Nelson, Ph.D., 671
Blum, Lester and William N. Nelson, Ph.D., Antecedents of blood transfer, 671
Brooks (Harlow) Lecture, Current methods in the treatment of tuberculosis, J. Burns Amberson, 20

C

Cancer, Attacking, in a community, Walter B. Quisenberry, 391
Cancer: What we know today (Symposium), 716-756
Cancer chemotherapy, Alfred Gellhorn, 750
Changing incidence of cancer throughout life, Harold F. Dorn, Ph.D., 717
Effectiveness of surgery in the management of alimentary tract cancer with special reference to the stomach and colon, Owen H. Wangensteen, 733
Modern therapeutic measures in cancer and their effectiveness; radiology, Richard H. Chamberlain, 746
Multiple views on the causation of cancer, Harold L. Stewart, 726
Cannon, Paul R., Changing pathologic picture of infection since the introduction of chemotherapy and antibiotics, 87
Cardiac conditions, Status of surgery in the management of (Panel Meeting on Therapeutics), Clarence E. de la Chapelle, *Moderator*, 902
Cerebral arteriosclerosis, Management of, psychiatric aspects, Edward B. Allen, 366
Chamberlain, Richard H., Modern therapeutic measures in cancer and their effectiveness; radiology (Cancer Symposium), 746
Cheever, Francis S., Acute diarrheal diseases of bacterial origin, 611
Chemotherapeutic agent, Interactions of host, microbe and, Colin M. MacLeod, 427
Chemotherapy and antibiotics, Changing pathologic picture of infection since the introduction of, Paul R. Cannon, 87
of viral diseases, Approaches to the, Frank L. Horsfall, Jr., 783
Collins, Harvey S. See Knight, Vernon, joint author
Collins, Vincent J., Evaluation of Pentothal® anesthesia after twenty years, its use and abuse, 438
Committee on Public Health, Report on drug addiction, 592
Comroe, Julius H., Jr. See Panel Meeting, 36
Cortisone, ACTH and infection, Lewis Thomas, 485
Cournand, Andre. See Panel Meeting, 36
Craig, Howard Reid, Herbert Budington Wilcox, 1874-1955 (obituary), 335
Crimean Campaign, 1854-1855, Pirogoff in the, B. M. Fried, 519
Cutler, Stanley I. See Stein, Aaron, joint author

D

Dameshek, William, Hypersplenism, 113
de la Chapelle, Clarence E. See Panel Meeting, 902
Depression and its management, Psychology of, Mortimer Ostow, 757
Diagnostic tests in infection, Evaluation of, Calderon Howe, 689
Diarrheal diseases of bacterial origin, Acute, Francis S. Cheever, 611
Disease, Pathogenesis, cellular pathology and the nomenclature of, illustrated by the hepatic necrosis, lipidosis and cirrhosis that are caused by protein diet deficiency, Eugene L. Opie, 279
Dock, William. See Panel Meeting, 198
Doe, Janet, Recent Academy publication, The surgery of Theodoric, 865
Donovan, Edward J., Citation and presentation of the Academy Medal to Allen O. Whipple, M.D., 257
Inaugural address, 245
Dorn, Harold F., Changing incidence of cancer throughout life (Cancer Symposium), 717
Dorst, Stanley, E., Our heritage from William Osler, 220
Drug addiction, Report on, Committee on Public Health, 592
Dubos, Rene J., Biochemical determinants of infection, 5

E

Eder, Howard A. See Panel Meeting, 198
Emerson, Haven, Citation and presentation of Academy Plaque to, 875

Response to Tribute, 872
Tribute to, Chas. Gordon Heyd, 869
Emmons, Chester W., Histoplasmosis, 627
Endocardial fibroelastosis, old and new concepts, Paul D. Rosahn, 453
Ewing (James) Ninth Memorial Lecture
Attacking cancer in a community, Walter B. Quisenberry, 391

F

Ferrer, M. Irene. See Panel Meeting, 902
Francis, Thomas, Jr., Approach to control of poliomyelitis by immunological methods, 259
Fried, B. M., Pirogoff in the Crimean Campaign, 1854-1855, 519
Friedman, Arnold P. See Panel Meeting, 835

G

Galdston, Iago, Avicenna and Islamic science, 300
Galdston, Morton. See Panel Meeting, 36
Gamma globulin, Low resistance to infection, relationship to abnormalities in, David Gitlin, 359
Gause, Ralph W., Diagnosis and treatment of menstrual irregularities, 59
Gellhorn, Alfred, Cancer chemotherapy (Cancer Symposium), 750
Germfree research, a basic study in host-contaminant relationship, 231-242
General and theoretical aspects of the problem, James A. Reyniers and Philip C. Trexler, 231
Serologic observations on germfree animals, Morris Wagner, 236
Morphologic characterization of germfree life, Helmut A. Gordon, 239
Gitlin, David, Low resistance to infection, relationship to abnormalities in gamma globulin, 359
Glenn, Frank, See Panel Meeting, 902
Goldsmith (Middleton) Twenty-first Lecture,
Pathogenesis, cellular pathology and the nomenclature of disease, Eugene L. Opie, 279
Introductory remarks, Charles T. Olcott, 275
Gordon, Helmut A., Morphologic characterization of germfree life, 239
Graduate Fortnight, 1953
Hypersplenism, William Dameshek, 113
Graduate Fortnight, 1954
Acute diarrheal diseases of bacterial origin, Francis S. Cheever, 611
Antibiotic therapy of viral and rickettsial diseases, Joseph E. Smadel, 704
Approach to control of poliomyelitis by immunological methods, Thomas Francis, Jr., 259
Approaches to the chemotherapy of viral diseases, Frank L. Horsfall, Jr., 783
Biochemical determinants of infection, Rene J. Dubos, 5
Changing pathologic picture of infection since the introduction of chemotherapy and antibiotics, Paul R Cannon, 87
Complications of antibiotic therapy Louis Weinstein, 500
Cortisone, ACTH and infection, Lewis Thomas, 485
Current methods in the treatment of tuberculosis, J. Burns Amberson, 20
Current status of the development of antimicrobial agents, Gladys L. Hobby, 181
Current view on the problem of drug resistant staphylococcal infection, Vernon Knight and Harvey S. Collins, 549
Evaluation of diagnostic tests in infection, Calderon Howe, 689
Histoplasmosis, Chester W. Emmons, 627
Interactions of host, microbe and chemotherapeutic agent, Colin M. MacLeod, 427
Low resistance to infection, relationship to abnormalities in gamma globulin, David Gitlin, 359
Natural history of streptococcal infections, Charles H. Rammelkamp, Jr., 103
Opening address, Alexander T. Martin, 3

Present day problems in rabies, Horace L. Hodes, 569
Prevention of rheumatic fever by the use of antibiotics, Gene H. Stollerman, 165
Viral hepatitis, Roderick Murray, 341
Graduate Fortnight, 1955
Program, 682
Group psychotherapy in patients with peptic ulcer, Aaron Stein, Roger W. Steinhardt and Stanley I. Cutler, 583

H

Habif, David V. See Panel Meeting, 639
Headache, its etiology and management (Panel Meeting on Therapeutics), H. Houston Merritt, *Moderator*, 835
Heyd, Chas. Gordon, Tribute to Haven Emerson, 869
Histoplasmosis, Chester W. Emmons, 627
Hobby, Gladys L., Current status of the development of antimicrobial agents, 181
Hodes, Horace L., Present day problems in rabies, 569
Holman, Delavan V., Venesection, before Harvey and after, 661
Horsfall, Frank L., Jr., Approaches to the chemotherapy of viral diseases, 783
Howe, Calderon, Evaluation of diagnostic tests in infection, 689
Hypersplenism, William Dameshek, 113
Hyperthyroidism, New and simple test for, employing L-triiodothyronine and the twenty-four-hour I-131 uptake method, Sidney C. Werner and Maryloo Spooner, 137

I

Infection, Biochemical determinants of, Rene J. Dubos, 5
Changing pathologic picture of, since the introduction of chemotherapy and antibiotics, Paul R. Cannon, 87
Cortisone, ACTH and, Lewis Thomas, 485
Evaluation of diagnostic tests in, Calderon Howe, 689
Interactions of host, microbe and chemotherapeutic agent, Colin M. MacLeod, 427
Isbell, Harris, Medical aspects of opiate addiction, 886

K

Kast (Ludwig) Lecture, Biochemical determinants of infection, Rene J. Dubos, 5
Kendall, Forrest E. See Panel Meeting, 198
Kneeland, Yale, Jr. See Panel Meeting, 639
Knight, Vernon and Harvey S. Collins, Current view on the problem of drug resistant staphylococci and staphylococcal infection, 549

L

Landesman, Robert, Retinal and conjunctival vascular changes in normal and toxemic pregnancy, 376
Lolli, Giorgio, Alcoholism as a medical problem, 876
Lord, Jere W., Jr. See Panel Meeting, 902
Low resistance to infection, relationship to abnormalities in gamma globulin, David Gitlin, 359

M

MacLeod, Colin M., Interactions of host, microbe and chemotherapeutic agent, 427
McDermott, Walsh. See Panel Meeting, 639
McKnight, W. K. Use of psychotherapy for seriously disturbed patients, 67
Manpower, Problems of professional, Frank B. Berry, 417
Martin, Alexander T., Address of the retiring President, 251
Opening address, Twenty-Seventh Annual Graduate Fortnight, 3
May (Charles H.) Memorial Lecture, Training of an ophthalmologist, Alan C. Woods, 794

Medical Research Forum
Program, 82
Medical Research Forum (abstracts)
Cirrhosis of the liver with portal hypertension in cystic fibrosis of the pancreas, Paul A. di Sant' Agnese, 406
Clinical evaluation of the tobacco ballistocardiogram, Leon Pordy, 415
Clinical experience with the injection of streptokinase intramuscularly in the treatment of infections and edema, Joseph M. Miller, John A. Surmonte, Milton Ginsberg and Frank A. Ablondi, 412
Debridement of burn slough by peptidases recovered from Clostridium histolyticus, Edward L. Howes, John D. MacLennan, Ines Mandl and Robert DeBellis, 413
Occurrence of myeloid leukemia in patients with metastatic thyroid carcinoma following prolonged massive radioiodine therapy, S. M. Seidlin, Edward Siegel, S. Melamed and A. A. Yalow, 410
Significance of the depression of individual complement components for the differential diagnosis of renal diseases, Kurt Lange, Eugene J. Wenk and Lawrence B. Slobody, 411
Thorazine-Rauwolfia serpentina combination in the treatment of essential hypertension (preliminary report), Harold B. Eiber, 407
Thyroidal uptake and plasma level of radioactive iodine in the diagnosis of untreated hyperthyroidism, Robert A. Newburger, Solomon Silver, Stephen B. Yohalem and Sergei Fettelberg, 409
Menstrual irregularities, Diagnosis and treatment of, Ralph W. Gause, 59
Merritt, H. Houston. See Panel Meeting, 835
Microbiology, Section on (abstracts)
Appearance of herpes simplex, influenza, vaccinia and fowlpox viruses within sectioned chorioallantoic membranes examined in the electron microscope, Councilman Morgan, Solon A. Ellison, Harry M. Rose and Dan H. Moore, 81
Immunological properties of the isolated Vi and O antigens of Salmonella typhosa, Maurice Landy, 774
Infection and immunity in experimental typhoid fever, Geoffrey Edsall, 776
Passive cellular transfer of sensitivity to serum, Mary Tremaine, 541
Selective inhibition of virus multiplication by synthetic chemicals, Igor Tamm, 537
Microbiology, Section on, and New York Pathological Society
Germfree research, a basic study in host-contaminant relationship, 231-242
General and theoretical aspects of the problem, James A. Reyniers and Philip C. Trexler, 231
Morphologic characterization of germfree life, Helmut A. Gordon, 239
Serologic observations in germfree animals, Morris Wagner, 236
Mitral stenosis, Evaluation of present day surgery for, Louis A. Soloff and Jacob Zatuchni, 815
Murray, Roderick, Viral hepatitis, 341

N

Nelson, William N. See Blum, Lester, joint author
New York Pathological Society
Endocardial fibroelastosis, old and new concepts, Paul D. Rosahn, 453
Introductory remarks on the presentation of the Twenty-first Middleton Goldsmith Lecture, Charles T. Olcott, 275
Pathogenesis, cellular pathology and the nomenclature of disease, Twenty-first Middleton Goldsmith Lecture, Eugene L. Opie, 279
New York Pathological Society. See Microbiology, Section on, and New York Pathological Society
New York Pathological Society (abstracts)
Cardiac hypertrophy and insufficiency of unknown etiology, Samuel K. Elster, Lester R. Tuchman and Henry Horn, 475

Mechanisms involved in the vascular lesions produced by endotoxins, Lewis Thomas, 861
Nodular and fatty glomerular lesions in rabbits receiving cortisone, H. H. Stumpf and S. L. Wilens, 857
Pathologic observations on atelectasis with hyaline-like membranes, George W. Anderson, 159
Serous cystadenocarcinoma of ovary, Carl T. Javert, 154
Studies on living human ova, Landrum B. Shettles, 153
New York Pathological Society and New York Roentgen Society (abstracts)
Correlation of radiographic and autopsy findings in suspected metatasis in the spine, Arnold L. Bachman and Edith E. Sproul, 146
Factors in bone equilibrium, Calvin H. Plimpton, 148
Some metabolic aspects of osteoporosis, Anne C. Carter and Ephraim Shorr, 151
New York Roentgen Society. See New York Pathological Society and New York Roentgen Society

O

Obituary
Wilcox, Herbert Buddington, 1875-1955, 335
Olcott, Charles T., Introductory remarks on the presentation of the Twenty-first Middleton Goldsmith Lecture, 275
Ophthalmologist, Training of an, Alan C. Woods, 794
Opiate addiction, Medical aspects of, Harris Isbell, 886
Opie, Eugene L., Pathogenesis, cellular pathology and the nomenclature of disease, 279
Osler, William, Our heritage from, Stanley E. Dorst, 220
Ostow, Mortimer, Psychology of depression and its management, 757

P

Panel Meetings on Therapeutics
Current concepts in the management of arteriosclerosis, William Dock, *Moderator;* David Adlersberg, Howard A. Eder, Forrest E. Kendall, Charles F. Wilkinson, Jr., 198
Current concepts in the management of asthma, emphysema and chronic pulmonary infections, Dickinson W. Richards, *Moderator;* Frank B. Berry, Julius H. Comroe, Jr., Andre Cournand, Morton Galdston and William B. Sherman, 36
Current concepts in the use of antibiotics, Yale Kneeland, Jr., *Moderator;* Alvan L. Barach, David V. Habif, Walsh McDermott and Harry M. Rose, 639
Headache, its etiology and management, H. Houston Merritt, *Moderator;* Daniel C. Baker, Jr., Arnold P. Friedman, Frank Payne and J. Lawrence Pool, 835
Status of surgery in the management of cardiac conditions, Clarence de la Chapelle, *Moderator;* M. Irene Ferrer, Frank Glenn, Jere W. Lord, Jr. and Robert H. Wylie, 902
Papper, E. M., Renal function during general anesthesia, 446
Payne, Frank. See Panel Meeting, 835
Pentothal® anesthesia, Evaluation of, after twenty years, its use and abuse, Vincent J. Collins, 438
Peptic ulcer, Group psychotherapy in patients with, Aaron Stein, Roger W. Steinhardt and Stanley I. Cutler, 583
Pirogoff in the Crimean Campaign, 1854-1855, B. M. Fried, 519
Poliomyelitis, Approach to control of, by immunological methods, Thomas Francis, Jr., 259
Pool, J. Lawrence. See Panel Meeting, 835
Pope, Arthur Upham, Avicenna and his cultural background, 318
Pregnancy, Retinal and conjunctival vascular changes in normal and toxemic, Robert Landesman, 376

Psychiatric aspects, Management of cerebral arteriosclerosis, Edward B. Allen, 366
Psychotherapy, Use of, for seriously disturbed patients, W. K. McKnight, 67
Pulmonary infections, chronic, Current concepts in the management of asthma, emphysema and (Panel Meeting on Therapeutics), Dickinson W. Richards, *Moderator*, 36
